## Our Products.....

### Heavy Duty Racking System

#### Selective Racking System

- ▶ Can accommodate any capacity requirements.
- ▶ Provides direct access to all stored pallets giving you the advantage of handling pallets without the need to move others.

#### Longspan Racking System

- ▶ Is a good solution for storage of light to medium duty loads
- ▶ Possible for items in boxes or loose items that are deposited and withdrawn manually.

#### Drive-in Racking System

- ▶ Applicable for bulk use or cold storage warehouse
- ▶ Storage rack configurations that allow the forklift to drive directly into the lane of stacked rows (called a bay).

## Our Products.....

### *Heavy Duty Racking System*

### Cantilever Racking System

- ▶ This system allows storage of long-length stock and is perfect for outdoor or indoor facilities and work sites.

### Rack Supported Mezzanine

- ▶ Mezzanine floor is supported by racks
- ▶ Mezzanine floor can be used as office area or for bulk items

### Knockdown Mezzanine

- ▶ Provide highest possible storage location in a limited space with sufficient space height. Accessible through staircase and loading gates with safety handrails. Mezzanine floor is supported by racks. Mezzanine floor can be used as office area.

## Our Products.....

### *Heavy & Light Duty Racking System*

#### Tire Racks

- ▶ Racking used for tires
- ▶ Can carry based on tires actual weight
